Planning Officer	Rebecca Andison		
Comment	<p>The Northumberland and Newcastle Society (N&N) objects to grant of planning approval for this scheme.</p> <p>The Society believes this is a poor application that provides insufficient evidence to justify the proposals and lacks clarity in design and on how this scheme would impact the location and its environs. We understand that a mobile unit already serves the stated purpose, this is a much more appropriate solution and we see no reason why it should not continue in that form.</p>
